8th Grade Science Intervention Plan

Jawan Wiltz Rachel Sawyer Liana Cox

The following outline describes our plans for Intervention in preparation for the upcoming STAAR.

The plan details three levels of action:

- **Tier I- Classroom Teacher Interventions**

1. Whole group instruction directed towards areas of weakness for the class as a whole.
2. Activities designed to target areas of weakness (Stations, Games, whole group instruction, small group instruction)
3. Frequent assessment and a MOCK STARR to assess student progress

- **Tier II- Targeted Interventions**

1. Divide students into to three groups: low, high and medium. Each teacher will take a group based on ability and target their needs.
Example: Physics 1 TEKS
Wiltz will address the needs of students who scored low
Sawyer will address the needs of students who fell in middle range
Cox will address the needs of students who need enrichment

- **Tier III- Intensive Interventions**

1. Small group instruction in class and during HAWKS SOAR intervention
2. Individual instruction as needed
