

Name: _____

Natural Selection Cartoon

Think of a **unique animal trait** or choose one below.

- Elephants with trunks
- Birds with wings to fly
- Giraffes with long necks
- Cheetah with spots
- Frogs with long tongues
- Zebras with stripes
- Camels with humps
- Deer with antlers
- Your own choice ☺

You should draw **1 cartoon**. The cartoon should have at least **4 panels** with **captions**. Make sure to **number your panels** 1-4 so that you can demonstrate Darwin's Theory of Natural Selection in action:

1. Genetic Variation
2. The struggle for existence
3. Survival of the fittest
4. Descent with Modification
